PROFILE SUMMARY

Full-stack developer (MCA, 2027) who ships production-ready software fast by pairing solid engineering with AI-assisted development. Built real-time, offline-first, role-secured systems across **web, desktop and Android**, from a 47-endpoint management platform to a PWA sync engine with 69 automated tests. Focused on enterprise-grade software at **lower cost, in less time**.

EDUCATION

Master of Computer Applications (MCA) | St Aloysius (Deemed to be University), AIMIT, Mangaluru — Jul 2025 – Expected 2027
Bachelor of Computer Applications (BCA) | Shivaji College, Karwar · CGPA 8.2/10 (Distinction) — 2023 – May 2025

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Python, Kotlin, Java, SQL, HTML/CSS
Frontend	React, Angular 19, Angular Material, Framer Motion, PWA / Service Workers, Jetpack Compose
Backend	Node.js, Express, REST APIs, Socket.IO / WebSockets, Flask, JWT & RBAC, Electron, Capacitor
Data & ML	MongoDB, MySQL, SQLite (FTS5), IndexedDB, Room; scikit-learn, pandas, NumPy
AI	LLM integration (Claude API), AI-assisted development & code review, prompt design
Quality & Ops	Git/GitHub, CI builds, Vitest, Playwright, WCAG 2.2 AA audits, Vercel, Linux (Ubuntu)

INTERNSHIP EXPERIENCE

AI/ML Intern — Jan 2025 – Mar 2025
ZetaCoding Innovative Solutions — Remote / Karnataka

- Built Flask web apps in Python with server-side routing, database integration and reusable backend modules for an AI/ML project.
- Wired ML logic into the request flow and debugged end-to-end, from data handling to the rendered result.

PROJECTS

TaskFlow | Project & team management platform — code ↗
Angular 19, Express 5, MongoDB, Socket.IO, Chart.js, Claude API

- Enterprise-style PM platform: drag-and-drop Kanban, calendar, dashboards, reports, file sharing and **47 REST endpoints**.
- JWT auth, bcrypt hashing and centralised **role-based access control** for Admin, Project Manager and Member roles.
- Real-time chat, typing indicators and live updates (Socket.IO); AI health scoring, priority hints, workload balancing, LLM summaries.

CrowdMate | Virtual queues & lost-person safety tags (PWA) — code ↗
React, TypeScript, Node.js, WebSocket, IndexedDB, Vitest, Playwright

- Scan a QR for a live queue token; finders of a lost child or elder alert the family via private chat, no phone numbers shown.
- TypeScript sync engine: IndexedDB offline outbox, idempotent ops, backoff with jitter, heartbeats and a service worker for offline use.
- Lazy-loaded screens and ETag/immutable caching; **69 automated tests** including WCAG 2.2 AA accessibility scans.

Paroh | Offline-first personal journaling app — code ↗
Electron, React, TypeScript, SQLite, Capacitor

- One codebase for desktop (Electron) and Android (Capacitor); entries saved as plain Markdown in a folder the user owns.
- Atomic save pipeline (temp file, read-back, fsync, rename), SQLite FTS5 search with a file watcher, typed sandboxed IPC bridge.
- Opt-in AI (LLM monthly notes, on-device transcription); Ubuntu and Windows installers built through CI.

PixelStore | Full-stack gaming e-commerce store — code ↗
React, Node.js, Express, MongoDB, JWT, Framer Motion

- Store, cart, checkout, order tracking, wishlist, reviews and an admin dashboard with revenue charts and product management.
- Server-side price calculation, **atomic stock reservation** (no overselling) and escaped, crash-safe search.

Qualify Milk | ML milk-quality grader — code ↗
Python, scikit-learn, Flask, SQLAlchemy, pandas

- Compared **10 ML models**; caught that 976 of 1,059 rows were duplicates and re-scored with grouped CV on unseen data (88%).
- Live Flask analyser with per-grade probabilities, plain-language explanations, saved history and bcrypt-secured accounts.

Also built: HabitTracker, a native Android app (Kotlin, Jetpack Compose, MVVM, Room).

SOFT SKILLS

Problem Solving · Adaptability · Self-learning · Communication · Team Coordination · Attention to Detail

INTERESTS & LANGUAGES

Interests: Fitness, Workout and Sports
Languages: English, Hindi, Konkani

DECLARATION

I declare that the above information is true and correct to the best of my knowledge. **Siddharth Bhat**
